Demo Link: <http://www.mybizz-classifieds.com/mybizz/>

Our idea is to keep things as simple as is possible. You have a nice looking
Classifieds and also this software is compatible with all browsers. MyBizz Classifieds
supports PayPal as a credit card online payment system. Also MyBizz Classifieds has support
for free ads and check payment. Pending mode is also supported, so you can choose from
administrator configuration panel to activate pending ad mode. In that mode a free
or check paid ad is not listed until an administrator verifies the ad. MyBizz Classifieds
was designed in a professional way: to look simple but nice, to be easy to use separate or
to easily integrate into your website. The only requirements are PHP and MySQL.

For more details see MyBizz Classifieds Website.

For ideas how you could create a business using this classifieds script please click [HERE](#)(Tutorial Section).
