

Carscripts Classifieds

Licence Type: Comercial

Website Link: <http://www.carscripts.com>

Demo Link: <http://www.carscripts.com/cars/>

If you need to create quickly an Auto Classifieds Website for advertising business, selling an buying cars then CarScripts Classifieds is what you need.

CarScripts supports PayPal as a credit card online payment system. Also has support for free ads and check payment. Pending mode is also supported, so you can choose from administrator configuration panel to activate pending ad mode. In that mode a free or check paid ad is not listed until an administrator verifies the ad.

A lot of options and payment schemes are available. Also you could configure payment scheme the way you want.

Some of the options are:

- very flexible; you can customize easily any text that appears on the screen
- different types of ads with different prices or check
- support for free ads and paid ads, using PayPal of time (monthly, for a number
- supports two payment types: payment per a period of months, customized, yearly) an ad after the payment was
- supports pending ads: so you can manually activate made (useful when using check payment) must activate his account in
- view and renew expired ads
- easy create and manage categories
- view and manage users accounts
- easily customizable header and footer
- easy configuration trough a nice control panel
- bad words list
- user activation via email, so a user after registration order to use it (useful for free ads)
- search feature
- contact us option
- many more options.
